DETAILED ACTION

This office action is a response to the amendment filed on 4/24/2007.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Upon further consideration with applicant's arguments, examiner agrees with the applicant's counsel that the prior art of record of Bae et al. fails to disclose the claimed invention such as a process for suspending an upper voice coil motor magnet above the lower voice coil motor magnet and magnetically aligning the upper voice coil motor magnet with the lower voice coil motor magnet during the suspending process. Bae et al. teach a process of making a hard disk drive including the upper voice coil motor magnet with the and lower voice coil motor magnet attached to the actuator. However, Bae et al. fail to teach how the upper voice coil motor magnet and the lower voice coil motor magnet are arranged and attached to the actuator such as suspending and magnetically aligning the upper voice coil motor magnet with the lower voice coil motor magnet during the suspending process. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-39 are allowed.
